Recent Activity & Stakeholder Communications:

➤ **Sales Posting/Inventory:**

There was a system issue last week that prevented sales from posting out of Agency inventory. Because of this, planned orders showing in the Agency Portal were not accurate. Once the problem was discovered and brought to the attention of the IT section, a resolution was found and quickly implemented.

➤ **System Code Update:**

The IT section is preparing system code updates tentatively scheduled for January 23rd. More information will be provided prior to the code push.

➤ **Ordering Schedules:**

Now that the holiday season is over, the regular product ordering and delivery schedules are back in effect. In addition, the regular Rush Order schedule is also back in effect. Please contact the helpdesk with any questions.
