# Liquor Modernization Progress

**Monday, September 14, 2015**  
**LMP Progress Report**

- Work is beginning this week to add additional detail on an Agency's order view. This additional information will help Agents better manage their planned order in the system and to use requisitions to get the products they need. The goal is to have this completed by mid-October for the start of the Holiday season. The Division will engage Agents for their input and feedback on this tool.

## **This Week's Focus**

*The following activities have been identified as the top priorities for the week.*

### ***Business Processes:***

- Evaluate new Rush Order procedure to improve efficiency.
- Warehouse audits begin this week with the Toledo warehouse. Please click here to review the ordering schedule: [Special Requisition Schedule for September 2015 Warehouse Audits](#)
- DLC is finalizing the delisting of 200 ml ("E" codes). These products will be labeled under "H" codes in the system moving forward. Agencies will receive instructions this week to make the appropriate changes in their registers.
